Downloads:

- FTDI drivers
<http://www.ftdichip.com/Drivers/VCP.htm>
- Windows command line application
http://sigma-shop.com/software/usb_relay/USBRelay.zip

Quick help:

usbrelay.exe -c:<COM port> -r:<RELAY>#<STATE> -b:<BROADCAST> -q

- c: Com port
- r: Relay(s), State(s)
- b: Broadcast/output on successful sent
- q Silence mode

Example:

usbrelay.exe -c:5 -r:1#1 (this will turn on relay)

usbrelay.exe -c:5 -r:1#0 (this will turn off relay)

ZIP file including:

- USBRelay.exe

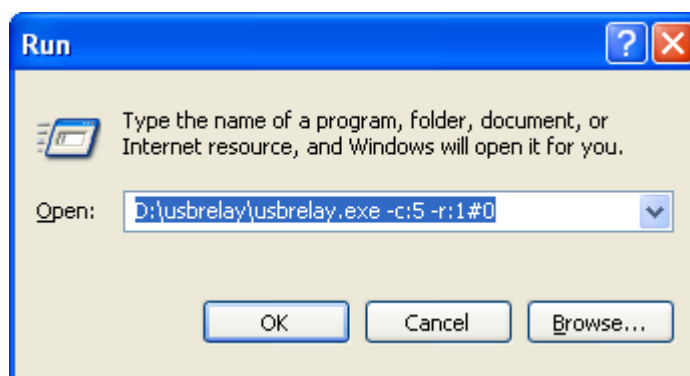

Step by step instructions:

Click on Start Menu > Run > Open

D:\usbrelay\usbrelay.exe -c:5 -r:1#1

Or

D:\usbrelay\usbrelay.exe -c:5 -r:1#0

This is only example command.

You must change path to the folder where you download Usbrelay.exe

Example: C:\Downloads\usbrelay\usbrelay.exe -c:5 -r:1#1
