

Board with 8 RELAY ready for your project 5V

Description :

There are 8 relays each capable of switching 12VDC/15A or 240VAC/10A. Each relay has an LED to indicate when it is operated.

The required power is 5V DC / minimum 600 mA.

The set including :

- One assembled and tested relay's board
- One 10 PIN flat cable (approximately length 30cm)
- One additional 10 PIN connector

Specifications :

Relays has Normally Open (NO) and Normally Closed (NC) Contacts rated for voltages:

- 12VDC/15A
- 24VDC/15A
- 125VAC/15A
- 250VAC/10A

Relay's datasheed :

(relays used : RAS-0515 - 1C)
